HEARTLAND
MATTRESS

Our Story

Life's greatest blessings sometimes come from its most difficult days.

When the recession of 2008 caused a downsizing in the RV industry, Mervin Lehman found himself without a job. Shortly after, he had a chance conversation with a neighbor who was part of the Northern Indiana Woodcrafters Association. That's when he learned of a need for quality, handcrafted mattresses.

Sensing an opportunity, Mervin got to work, learning all he could about the mattress industry. He was blessed by the generous support of a seasoned industry professional, who mentored him, spending hours at his kitchen table.

In 2009, Heartland began producing mattresses in a garage. In the years since that simple beginning, Heartland has continued to add mattresses to its product line and has built a reputation for quality and customer service in both the RV and residential mattress markets.

Family-Owned and Operated

Today, we are still a family business. Mervin handles most of the work with Heartland's retailers. His son-in-law, Jay Bontrager, joined the business in 2016 and now runs the day-to-day operations. They've even gotten help from the next generation—the Signature mattress series is named for the oldest granddaughters, and they've signed their names to the tags.

High-Quality Mattresses, Made in the USA

We use only quality, US-sourced materials in every Heartland mattress. From the foam to the coils, each mattress is handcrafted and inspected prior to shipment. We are dedicated to keeping a standard of excellence in quality and workmanship, with a goal of building a reputation that people will trust for generations.

Committed to Service

Mervin knows that Heartland wouldn't exist without the support he received at the beginning. That's one reason he is committed to supporting our retailers and their customers. We believe that the more we can do for our retailers, the better they can serve the people who visit their stores. While we do not sell directly to consumers, we appreciate everyone who considers or purchases a Heartland mattress. As we say to our retailers, "We'll take care of you so you can take care of your customers."

Innerspring

SOLACE SERIES

Overview:

This new Series is loaded with features. We have fabric encased coils with foam, cooling technology fabric and specialty foams. All working together to deliver a next level of comfort and support.

Models:

Lumina

Aurora

Astra Luxe

SOLACE SERIES

Lumina

Firmness: 4

Lumina gives rejuvenating comfort with a cool-to-the touch surface and a generous layer of Serene® foam for pressure-relieving support. Its tight-top design creates a smooth, stable sleep surface, and individually fabric-encased coils provide responsive support and reduced motion transfer. Designed for sleepers who prefer a slightly firmer feel, it balances comfort and durability for long-lasting rest.

Firmness: 3

Aurora features a luxurious Euro-top design coupled with 3" of premium latex foam for exceptional responsiveness and breathability. The cool-to-the-touch gold and black knit cover increases comfort while maintaining a refined look. Inside, fabric-encased coils adapt to you, giving consistent support across the mattress. With a plush but supportive feel, Aurora is ideal for sleepers seeking elevated comfort with natural performance benefits.

SOLACE SERIES

Astra Luxe

Firmness:

Astra Luxe is the pinnacle of the Solace Series, combining layered Serene® and latex foams for exceptional pressure relief, contouring comfort, and responsive support. Its Euro-top construction gives a plush, refined feel. The 16" profile adds depth and luxury to the mattress. Individually fabric-encased coils provide advanced motion isolation and full-body support. Designed for those who want the most advanced comfort Heartland offers, Astra Luxe delivers a truly elevated sleep experience.

Fabric Encased Coils

Our fabric encased coil units feature individual coils each wrapped in fabric. This allows the coils to flex and conform to the individual contours of the body. This design is unique and can be used on adjustable beds. It can be roll-packed without causing any harmful stress to the unit.

Innerspring

GEMSTONE SERIES

Overview:

Quality, comfort, and economy come together in the Gemstone. These mattresses feature 6" fabric encased coils with sturdy edge support. The spring core is topped with layers of high-density foam.

Featuring:

Tranquility® Active Response Foam and Hybrid TheraGel® Antimicrobial Memory Foam

Tranquility® foam is the most breathable active response foam on the market, providing 2x more airflow compared to other products.

Tranquility® foam offers excellent support and unprecedented durability.

Hybrid TheraGel® combines the properties of several products:

Serene® + Isotonic™ + TheraGel™ = Hybrid TheraGel™

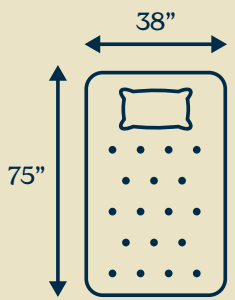

COPPER • GRAPHITE • SILVER

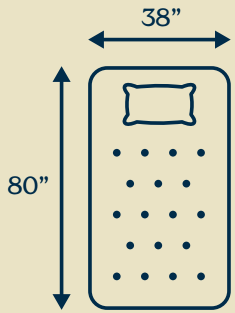

Mattress Sizes

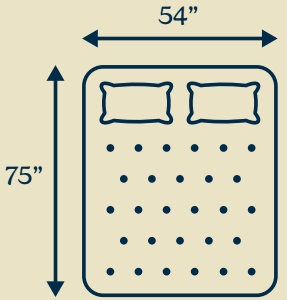

Our mattresses are available in a wide variety of sizes:

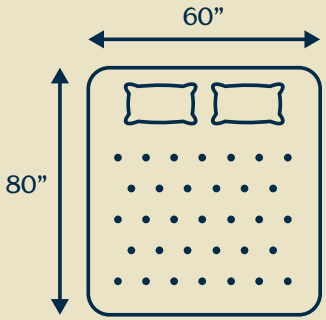

Twin

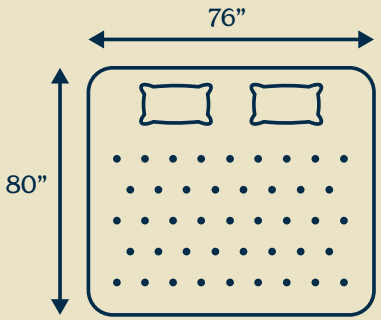

Twin XL

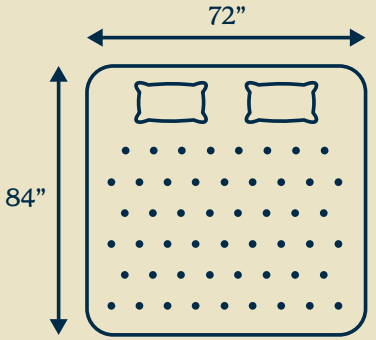

Full

Queen

King

California King
(N/A in Innerspring unit)

We can manufacture custom sizes on some of our mattresses. *Please keep in mind that due to federal regulations 1632 & 1633 and several other state and city laws, we cannot change the make-up of a mattress without testing a new prototype unless a one-time medical exemption is provided by a doctor.*

Box Springs

A box spring plays a big part in the life of a mattress.

Here at Heartland, we are dedicated to only using top-quality box springs. Semi-Flex box springs are designed to properly support your mattress for many years.

SEMI-FLEX

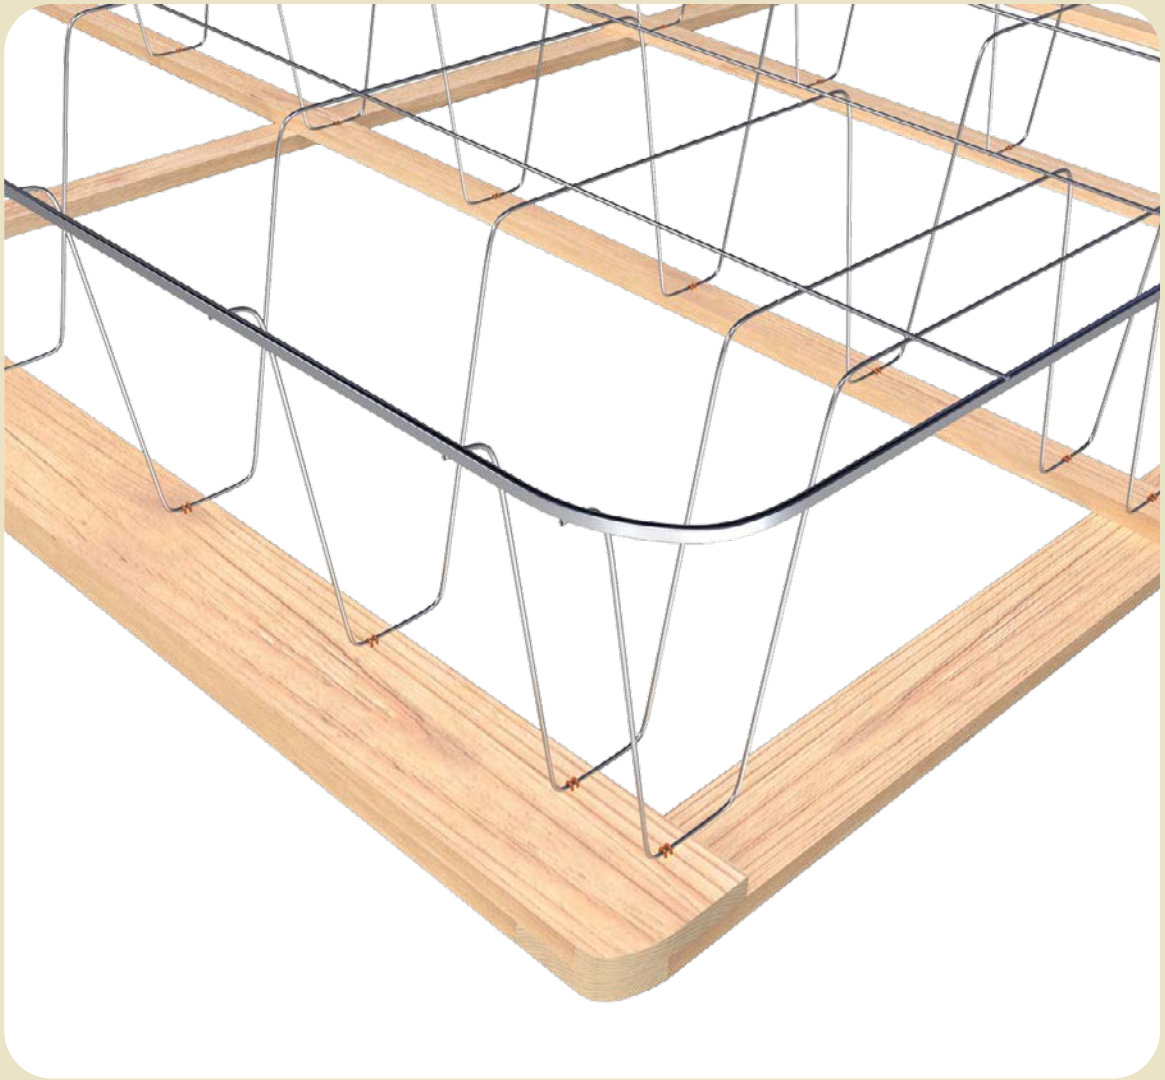

The unique grid/leg assembly is very efficient, firmer, durable, and noiseless. The reinforced grid adds surface coverage and enhanced stability. The performance grid is 14% stronger than the original 3-gauge border. A complete one-piece steel foundation with no separate components. The box spring passes all durability tests including Cornell, Rollator, and Impact.

STANDARD PROFILE

The grid height is 6". The total height of the box spring is 8".

LOW PROFILE

The spring height is 3". The total height of the box spring is 5".

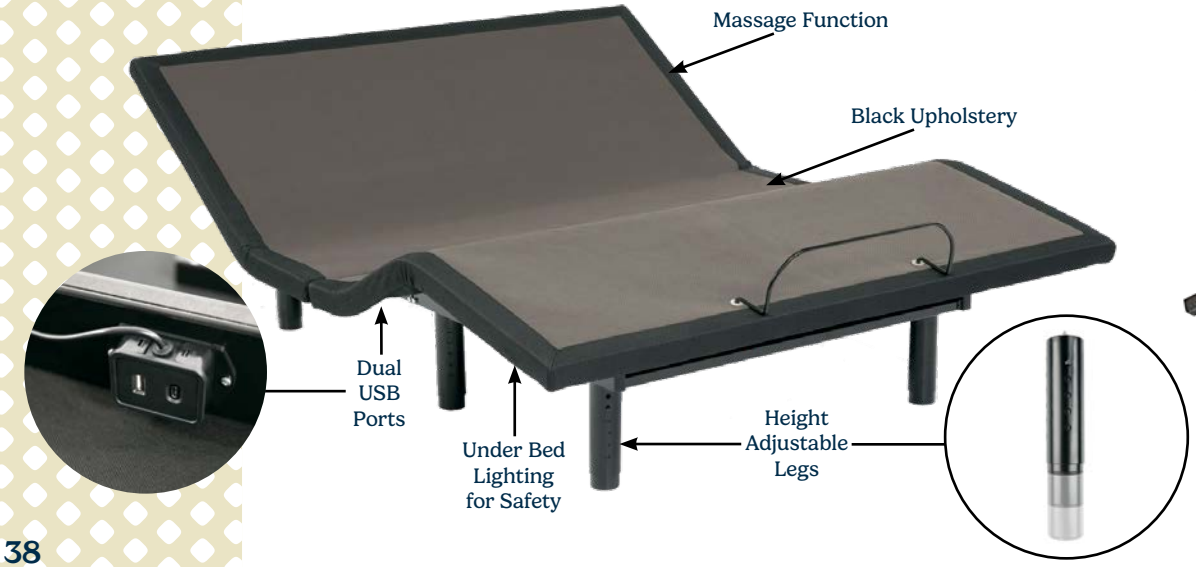

Bases & Frames

Heartland's Adjustable Bed Base

Engineered for comfort and convenience, the Heartland Adjustable 2.0 is an adjustable base with a zero clearance design that makes it compatible with most platform and slat beds. It includes our newest remote design – placing access to key features such as massage with wave, under-bed light, and head and foot articulation in the palm of your hand. You can also operate the base through the mobile app for even greater convenience. Enjoy a relaxing bedroom environment and wake up feeling refreshed with the Heartland Adjustable 2.0 bed base.

The adjustable base is compatible with all of our mattresses except the Heirloom Series.

KEY FEATURES

Head and Foot Articulation – Effortlessly raise the head or foot to find your perfect relaxation position.

Parcel Carrier Friendly – Parcel carrier friendly sizes are available to simplify delivery to retail stores and consumer homes.

Wireless Remote – This base includes a wireless, Bluetooth, 17 button remote. The remote offers many features, including programmable positions and a snore button.

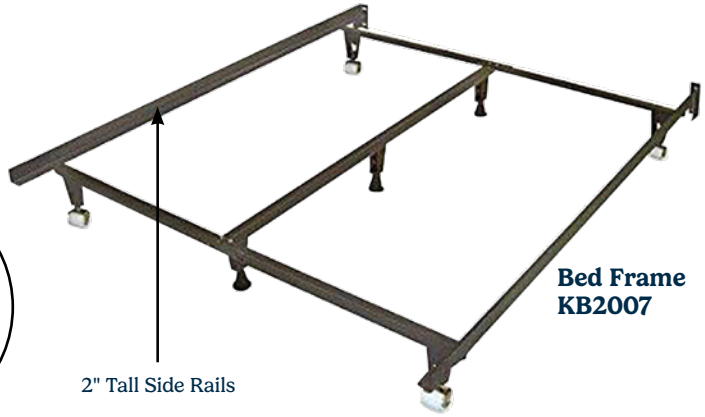

One-Touch Flat Button – Easily return the bed to a flat position with the touch of a button.

Flashlight – Find your way in the dark with a convenient flashlight on the remote control.

Height-Adjustable Legs – Heavy-duty 2.5" diameter legs easily adjust from 8" to 13" for a free-standing setup and perfect fit inside case goods.

Standard Bed Frames

See our price list for warranty-compliant bed frames.

Bed Frame KB2007

Components & Terms

PREMIUM FOAMS In all our premium mattresses, we use a high-density foam to maintain long-lasting comfort.

QUALITY BOX SPRINGS Featuring heavy-duty Semi-Flex springs.

CENTER SUPPORT Featuring Ring Flex in our mattress centers. While all mattresses will eventually show some body impression, this feature helps alleviate this problem.

FULL EDGE SUPPORT We use Edge Guard technology for full edge support to eliminate broken edges and border wire.

VISCO GEL MEMORY FOAM Visco is a memory foam developed by NASA. Visco is sensitive to body heat. The warmer it becomes, the softer it will be. Visco tends to sleep warmer. Heartland uses a brand using cool technology that sleeps 2° cooler than other memory foams. All our visco beds feature a 4 lb. or better quality.

LATEX FOAM Latex foam is a natural foam using sap from a rubber tree which is boiled down and poured into a form with pins that form air holes, allowing it to breathe. Latex is a premium foam with a projected lifetime of 20-25 years. It is also a natural dust mite deterrent, so you will have less dust in your mattresses, hence better quality of air at night and less proneness to allergies. Because all-natural latex is extremely heavy and expensive, we used a blended version.

SERENE® A specialty foam that self-adjusts to individual body contours. Serene® is the registered trademark of Carpenter Co.

FABRIC ENCASED COILS Our fabric encased coil units feature individual coils each wrapped in fabric. This allows the coils to flex and conform to the individual contours of the body. This design is unique and can be used on adjustable beds. It can be roll-packed without causing any harmful stress to the unit.

SEMI-FLEX The unique grid/leg assembly is very efficient, firmer, durable, and noiseless. A reinforced grid adds surface coverage and enhanced stability. The performance grid is 14% stronger than the original 3-gauge border. A complete one-piece steel foundation with no separate components. This box spring passes all durability tests, including Cornell, Rollator, and Impact.

CALIBER EDGE Fabric encased coils with different diameter gauges that allow strength and stability around the perimeter of the mattress.

INNERSPRINGS All our innerspring mattresses are manufactured using recycled domestic steel. We do not use any imports. Most of our premium-line have 13-gauge (heavy-duty) innersprings. Our 660 coil (full-size) features inverted innersprings and the helical coil is run lengthwise. This also helps reduce motion transfer.

FOUNDATIONS Heartland is committed to a quality box spring. Most sagging mattresses come from lesser-quality bed frames or from not having center support, resulting in box spring failure. Sales reps must stress the need for a center support. We require all bed frames to have a minimum of one center support leg to the floor (a king-size needs four).

QUALITY WORKMANSHIP While we do not claim to build a perfect mattress, we strive to come as close as humanly possible. Each individual mattress is handcrafted and inspected prior to shipment. Heartland Mattress LLC is dedicated to maintaining a standard of excellence in quality and workmanship with a goal to build a brand name (Heartland) that you can trust for generations.

Shipping Options

For your convenience and competitive advantage

we can roll-pack and ship to you or your customer. We can wrap mattresses in plastic or place them in boxes. Please indicate your preference when placing your order.

Point-of-Sale Items

We offer the following items to enhance your display and boost your sales:

- **Foot Protectors** - Embroidered with Logo
- **Pillows** - Embroidered with Logo
- **Mini (Sample) Mattresses**

Warranty Info

THE HEARTLAND PROMISE

The quality and craftsmanship that are built into every Heartland mattress and foundation allow Heartland to offer a limited warranty against defects in workmanship or materials. This warranty extends only to the original purchaser.

Proof of purchase with date, place of purchase, and purchase price is required to obtain service under this warranty.

If service resulting from any such defect is required during the non pro-rated year(s) after purchase, your Heartland mattress and/or foundation will be repaired, or - at the manufacturer's option - replaced without charge for labor and material, exclusive of transportation costs.

If service resulting from such defect is required during the remaining years of the applicable limited warranty, your Heartland mattress or foundation will be repaired, or – at the manufacturer's option – replaced at the charge for labor and materials calculated according to the warranty code of the model you purchased, plus all transportation costs. If identical materials are not available at time of service, manufacturer may substitute materials of comparable quality.

RETAIN YOUR PROOF OF PURCHASE:

This Limited Warranty shall NOT apply under the following circumstances:

1. If bedding is found to be unsanitary.
2. When product failure is due to a cause other than defective workmanship or material.
3. Any larger-size mattress and/or foundation that is used on a frame or bed rails without center support legs.
4. Any damage to the outer fabric of the cover, including wear and tear.
5. If this product is used for commercial purposes.
6. If purchaser does not present proof of purchase.
7. If the mattress is not used on a matching Heartland (or equivalent quality) box spring/foundation with a proper frame that has a rigid center support.

CONSUMER ADVISORY:

All mattresses will show body impressions as the upholstery settles. This is not a structural defect covered by this warranty. The upholstery is intended to provide cushioning and body comfort. This body impression is unavoidable and is not an indication of any structural failure of your new mattress.

All implied warranties on this product, including any implied warranty of merchantability or fitness for a particular purpose, shall not exceed in duration the term of this limited warranty.

The remedies provided herein are the exclusive remedies provided under any warranty for this product, express or implied. The manufacturer shall not be liable for incidental or consequential damage arising out of the use of this product, and in no event shall its liability exceed the purchase price of the product.

To obtain performance under this Limited Warranty: (1) Contact the retailer from whom you purchased your Heartland product; (2) If your retailer is unavailable, telephone or contact the manufacturer.
